Cooperative Finance: A Steady Signal in a Noisy World

Why do hundreds of millions of people worldwide choose credit unions? Because each credit union puts an emphasis on providing service to its members and local communities. That local service - community by community - contributes to a global reach that touches more than 400 million members.

As cooperative and democratic financial institutions, credit unions' success depends on the success of their members and their community. Your best interest is in our best interest. This **October 15**, Journey FCU will join more than 67,000 credit unions from 100 countries to celebrate the **78th anniversary of International Credit Union Day[®]**.

Credit unions strive to make the world a better place for their members by offering affordable rates and high-quality service that simplify their lives and empower them to meet their financial goals.
